Every chapter has been further split into few parts, each part focusing on different topic like **important characters and locations** (including merchants), **treasure chests, places where you can unlock new codex entries, the localization of secrets, astrariums and ocularums or optional dungeons and additional locations** to visit. Every page includes a **high quality map with the most important locations marked**. Another important part of this atlas is a chapter about **localization of the quarries and logging stands**. They're useful when building the Skyhold later in the campaign. This has been rounded up with a **full list of quests**, including the
